

Le bon entier !

1. En utilisant les entiers de 0 à 9, une fois chacun au maximum, complète les cases afin de vérifier l'égalité.

<p>Tentative 1 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array} = \begin{array}{ c c } \hline \square & \square \\ \hline \square & \square \end{array}$	<p>Tentative 2 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array} = \begin{array}{ c c } \hline \square & \square \\ \hline \square & \square \end{array}$
<p>Tentative 3 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array} = \begin{array}{ c c } \hline \square & \square \\ \hline \square & \square \end{array}$	<p>Tentative 4 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array} = \begin{array}{ c c } \hline \square & \square \\ \hline \square & \square \end{array}$

2. En utilisant les entiers de - 9 à 9, une fois chacun au maximum, complète les cases afin de vérifier l'égalité.

<p>Tentative 1 :</p> $\frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} \div \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} = \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}$	<p>Tentative 2 :</p> $\frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} \div \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} = \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}$
<p>Tentative 3 :</p> $\frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} \div \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} = \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}$	<p>Tentative 4 :</p> $\frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} \div \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}} = \frac{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}{\begin{array}{ c } \hline \square \\ \hline \square \end{array}}$

Si tu as terminé : même consigne mais ... afin que le nombre obtenu soit le plus grand possible !

3. En utilisant les entiers de 1 à 9, une fois chacun au maximum, complète les cases afin de vérifier l'ordre.

<p>Tentative 1 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \times \begin{array}{ c } \hline \square \\ \hline \square \end{array} < \square < \begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array}$	<p>Tentative 2 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \times \begin{array}{ c } \hline \square \\ \hline \square \end{array} < \square < \begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array}$
<p>Tentative 3 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \times \begin{array}{ c } \hline \square \\ \hline \square \end{array} < \square < \begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array}$	<p>Tentative 4 :</p> $\begin{array}{ c } \hline \square \\ \hline \square \end{array} \times \begin{array}{ c } \hline \square \\ \hline \square \end{array} < \square < \begin{array}{ c } \hline \square \\ \hline \square \end{array} \div \begin{array}{ c } \hline \square \\ \hline \square \end{array}$
